ABOUT ME

A passionate and detail-oriented WordPress Developer and SEO Specialist with hands-on experience at InsightsNP. Skilled in building, optimizing, and maintaining websites for better performance and visibility. Currently expanding skills in Flutter app development and modern frontend technologies like HTML, CSS, JavaScript, and Dart. Dedicated to continuous learning, clean design, and delivering digital solutions that make an impact.

EDUCATION

SEE | 2017-2020
Araniko Secondary School, Khairenitar, Tanahun

+2 with Science | 2020-2022
Srijana Secondary School, Pokhara

BSc CSIT | 2022-2026 | Ongoing
National Infotech College, Birgunj

WORK EXPERIENCE

InsigntsNP| 2023 - 2025 | https://insightsnp.com/

Designed, developed, and customized responsive WordPress websites using Elementor and custom themes. Implemented comprehensive on-page and off-page SEO strategies to enhance website ranking and visibility, while managing overall performance optimization, including speed, mobile-friendliness, and schema markup. Created and published engaging blog and media content aligned with SEO best practices

PROJECTS

AgriConnect Nepal | https://agriconnect-nepal.vercel.app/
AgriConnect Nepal is a digital platform empowering Nepali farmers with the tools, knowledge, and community they need to thrive. From real-time weather updates and crop price trends to government scheme notifications.

Nepali Festival Wishes

A Flutter-based mobile app powered by Supabase backend. It provides a collection of festival wishes that users can browse, share, and send. The app also features a Ward Maker, enabling users to create personalized greetings.

SEE Guru

A Flutter-based mobile app for SEE students, using WordPress as the backend to manage and store study resources. The app provides easy access to notes, practice materials, and exam-focused content. Students can browse, download, and organize resources seamlessly
